PROJECTS

Online Examination Portal
Tech Stack: ExpressJs, MongoDB, HTML, CSS, Javascript(ES6)

Online examination system is a web-based examination system where examinations are given online. Either through the internet or intranet using computer system. The main goal of this online examination system is to effectively evaluate the student thoroughly through a totally automated system that not only reduce the required time but also obtain fast and accurate results.

Personal Portfolio Website 🔗
Tech Stack: HTML5, CSS3, Javascript(ES6), Local Storage

- Built my personal portfolio website to showcase my work and projects with other social links to connect.
- Used local storage to store the theme preference by user for their next visit on the site.
